

# DREAD ANTHRAX BREAKS OUT ON VALLEY ISLE IN HALEAKALA HERD

Apparently Another Deliberate Attempt To Let Loose An Epidemic That Might Wipe Out The Territory's Beef Supply

NO ACCIDENT, SAYS TERRITORIAL VETERINARIAN

Isolated Herd In Paddock Victim Of Devilish Design—Five Die In Two Days—List May Be Large Before Disease Is Checked

Anthrax, the cattle disease which broke out mysteriously among herds on Kauai and Oahu, has now broken out on Maui, according to wireless advice received by the board of agriculture and forestry.

The disease has appeared on the Haleakala Ranch. Two cows died there Friday and three more yesterday, up to six o'clock.

That the outbreak on Maui is due to a criminal act, inoculation of the cattle by a person or persons desiring to injure the Territory, or more probably the United States, appears more than probable, according to the opinion expressed by those cognizant of the circumstances. Dr. J. C. Fitzgerald, deputy territorial veterinarian stationed at Wailuku, was in Honolulu to attend the race. He immediately upon receipt of the news that anthrax has broken out on Maui, he left for that island to take charge of the situation.

**Independent Outbreak**  
Dr. Victor Norgaard, territorial veterinarian, stated last night that there was no possible connection between the recent outbreak at the Farm Corn dairy in Honolulu and the one on Maui. Asked if in his opinion the Maui outbreak might be due to malicious intent, he stated emphatically that it looked that way.

Dr. Norgaard stated recently at a meeting of the board of agriculture and forestry that, in his opinion, there was absolutely no doubt but that the cows of the Farm Corn dairy that were attacked by the disease had been deliberately inoculated with anthrax germs.

**Need For Firing Squad**  
The opinion was emphatically expressed last night that the only effective cure for the situation would be a straight shooting firing squad. If disease can be spread with impunity among the cattle of the Territory, upon which the people depend in large part for their sustenance, there is nothing to prevent the dissemination of disease among the people themselves.

In any European country a person detected in poisoning cattle or otherwise injuring the country would live about as long as it would take to lean him up against a stone wall.

**Appeared in Paddock**  
The last outbreak of anthrax, Dr. Norgaard stated, is in a bunch of about sixty cattle in a paddock below the polo grounds. Every precaution is being taken to prevent the disease from spreading to the great herds of cattle on the island. Dr. Norgaard stated also that the cattlemen of Hawaii have been warned to take precautions to prevent the disease gaining a foothold among their herds.

A large supply of anthrax serum is due to arrive here by the next steamer from the Coast, and it will be used to render the unaffected cattle on Maui immune to the disease.

That the outbreak of anthrax on Maui under conditions similar to that at Moiliili, this city, clinches the theory of a deliberate plot against the meat supplies of this Territory is now the belief of responsible officials. It is now evidently believed that unless the greatest care is exercised by the stock men of Hawaii, the dread scourge will appear on that island.

The outbreak in an isolated herd on the slopes of Haleakala fulfills a prediction made by the Advertiser ten days ago by a high government official, thoroughly conversant with the situation, in which he asserted, as his belief, that the head responsible for the inoculation of the cattle would carry it to the Maui herds and also the Hawaii herds. The latter part of the prediction has yet to be proved.

No meeting of the board of agriculture have yet been announced to consider the new and alarming feature of the anthrax situation but it is possible that the commissioners will meet today. Human anti-anthrax serum has already been shipped to Maui, and possibly serum for cattle inoculation, a large consignment of the latter being shipped on the way to the Islands from the Coast.

The Maui evidence was gone over yesterday by the same methods used in analyzing the Moiliili epidemic and the same conclusion was reached—that is, that it is contrary to a normal anthrax history and can be satisfactorily accounted for only by the fact that the inoculation of the herd was deliberately accomplished.

It is again pointed out that the epidemic appeared suddenly and virulently, instead of slowly and gradually as it would in case of a normal infection. No relation between the Haleakala and Moiliili herds can be traced at present. The question of infected food has already been eliminated by the

# WILL TAKE FOOD CENSUS OF HAWAII

Commission Taking Steps To Ascertain What Is On Hand To Feed The Territory

In an effort to ascertain as definitely as possible the amount of foodstuffs on hand in Hawaii, the food commission will send out 2500 circular letters next week to dealers in foods, asking them to fill question forms which will be enclosed, and mail them to the commission as soon as possible. The commission will try to find out by this means just how much food is available for human consumption on June 15, a specific date.

With this mass of data tabulated the commission hopes to have a fairly accurate check on the Territory's entire food problem—a basis upon which it may proceed to evolve a concise plan for augmenting the islands' supplies and for insuring upon rigid economy.

The result of this tabulation is anticipated with interest. It may reveal some startling facts concerning the islands' food supply.

The circulars, to be printed in English and Japanese, and possibly in one or two other languages, will ask the dealers to report, on the blanks, the quantities of foodstuffs in their possession on June 15. The items on which they are requested to report will be as follows:

**Cereal Products**—Wheat flour, including whole wheat and Graham; all other flour, rye, buckwheat, etc.; corn meal, bran, breakfast cereals, all paste products, macaroni, spaghetti, biscuits and crackers.

**Dry Beans, Peas, Etc.**—Beans, peas, lentils, and miscellaneous legumes.

**Meat and Fish**—Fresh beef, fresh pork, fresh lamb and mutton, fresh veal, miscellaneous fresh meats such as poultry, sausage, dried and smoked meats, ham, bacon, salt and pickled meats, dried and smoked fish, salt and pickled fish, canned fish.

**Dairy Products and Eggs**—Canned milk, cheese, butter, eggs.

**Oils and Fats**—Olive and other edible oils, lard and lard substitutes, butter substitutes.

**Vegetables and Fruits**—Potatoes, onions and dried fruits.

**Canned Goods**—Canned vegetables, canned fruits, canned cooked products such as baked beans, soups, etc.

At about the same time the commission intends sending circular queries to all firms having licenses to slaughter hogs and cattle, asking them to report the number of animals killed by them in 1916. There are about 150 firms or individuals in the Islands at present licensed to slaughter swine or cattle.

Two of these are on Oahu and thirty-five are located in Kauai.

**TOMATO PLANTS ARE TO BE DISTRIBUTED**

Next Wednesday between one and four p. m. is the time appointed for the free distribution of tomato plants at the United States Experiment Station. Announcement was made of this one week ago and the plants are now ready to be set out. There are plants grown from seeds of hybrid tomatoes which are being used as a basis of experiment in the attempt to breed a variety which may be resistant to the attacks of the fruit fly.

The plants will be distributed in lots of two to each individual and there will be no charge for them but growers are requested to report upon the success of the plantings with special reference to the attacks of the fruit fly. If the fruits of any of the plants show special resistance to the attacks of the flies, this should be reported at once to the experiment station.

The U. S. Experiment Station announces that there is still a small quantity of plants of papaya and of rose for free distribution to parties who call or send for the same on Wednesday afternoon, June 13, between one and four p. m. It is not necessary to make application for any of these plants in advance but those who send a message should give him a note to the experiment station requesting the plants.

**TINSMITHS NEEDED**

An open competitive examination for tinsmiths, men only, is announced by the United States Civil Service Commission for July 10. A vacancy in the Hawaiian ordinance department, Honolulu, at three dollars per day, and four vacancies requiring similar qualifications will be filled from this examination. Physical ability, training and experience will be the subjects considered. Applicants must have reached their twentieth birthday, and be citizens of the United States. Application blanks may be obtained from John W. Short, secretary of the civil service board.

It is pointed out that the epidemic appeared suddenly and virulently, instead of slowly and gradually as it would in case of a normal infection. No relation between the Haleakala and Moiliili herds can be traced at present. The question of infected food has already been eliminated by the

facts that careful bacteriological examinations have proved it to be barren of anthrax and that the Moiliili feed has been fed to other herds in large quantities without any effect. The question of feed as a common source of infection was therefore eliminated in advance and the experts looked in vain for any other possible natural connection.

Absolutely no information was given out as to any measures which the government is taking against the plot which appears now certain as realities rather than suppositions. The federal government, it is known, has made inquiries of territorial officials. What they have led to is not known.

There was every evidence that the news of the Maui outbreak yesterday had raised public indignation and that another outbreak under similar conditions may have effects above and beyond the quarantine and routine aspects.

# Honolulu Wholesale Produce Market

Quotations  
ISSUED BY THE TERRITORIAL MARKETING DIVISION  
June 8, 1917.

**SMALL CONSUMERS CANNOT BUY AT THESE PRICES**  
Island butter, lb. cartons ..... 32 to 35  
Eggs, select, doz. ..... 40 to 45  
Eggs, No. 1, doz. ..... 35 to 40  
Eggs, Duck, doz. ..... 30 to 35  
Young roosters, lb. ..... 40 to 45

**VEGETABLES AND PRODUCE**  
Beans, string, green ..... 40 to 45  
Beans, string, wax ..... 45 to 50  
Beans, Lima in pod ..... 40 to 45  
Beans, Maui red ..... None  
Beans, Calico, cwt. ..... None  
Beans, Small white ..... None  
Peas, dry, lb. cwt. ..... None  
Beets, doz. bunches ..... 20 to 25  
Jerrots, doz. bunches ..... 20 to 25  
Cabbage, cwt. ..... 2.50 to 3.00  
Corn, sweet 100 ears ..... 2.50  
Jorn, Haw. sm. yel. ..... None  
Jorn, Haw. lg. yel. ..... None  
Rice, Jap. seed, cwt. ..... 5.50  
Rice, Haw. seed, cwt. ..... 6.25

**FRUIT**

Corn, sm. yel., ton ..... \$11.00  
Corn, lg. yel., ton ..... \$10.00  
Corn cracked, ton ..... \$2 to \$3  
Bran, ton ..... \$5.00 to \$6.00  
Barley, ton ..... \$6.00  
Scratch food, ton ..... \$5.00 to \$7.50

**WEEKLY MARKET LETTER**  
There has been very little change in the market during the past week. The Division has received large shipments of green peas and cabbage from Maui and Irish potatoes from Hawaii. The green peas were the best that the Division had ever received but as the people of Honolulu look upon fresh produce as a luxury only a few could be sold at the Division to consumers. Quite a few were sold to the army. The daily advertisements do not bring the results they should.

The cabbage received by the Division was in very poor condition due to the fact that it was very soft and was shipped in bags. Producers should raise hard headed cabbage if they intend to ship it and in addition ship it in crates instead of bags.

The onion market is at a standstill and unless the consumers demand the island product there will be tons of the best onions grown in the Territory go to waste in the next month or two.

A shipment of taro from Kona met a ready sale and from Friday, the 15th, the Division hopes to have a supply on hand at all times.

All producers should get acquainted with the county agent of his district and keep him informed on plantings, harvests, diseases of crops and insect pests. The county agent will give the producer all the help he can.

A. T. LONGLEY,  
Superintendent.

# BODY FAT OF POULTRY VALUABLE IN COOKERY

With Taro Rotting In Fields, Price Is Higher Than Potatoes

May Be Used For Many Purposes In Kitchen

WASHINGTON, June.—Do you throw away the body fat of poultry—big layers of clean, sweet, yellow fat around the gizzard and found elsewhere around the intestines of the chicken? If you do, you are missing a valuable food. If you are a specialist of the United States Department of Agriculture, you are throwing away fat which French housewives consider the finest of fats for making cakes and especially puff paste.

In certain seasons in New York and other big cities, this fat is so highly esteemed that it brings as much as \$1.10 per pound. So great is the demand for this fat that many people make a business of collecting it from butchers and others who dress poultry before delivering it to customers. Housewives would do well to insist on having it delivered if they buy their poultry dressed. By using chicken fat in cooking they can cut down the amount of fat they must buy for that purpose.

To prepare it, try it out in a double boiler or other vessel set in hot water, until the fat just melts away from the tissues and can be poured off. This fat becomes rancid easily and should be kept cool and covered like butter and used in a very few days. Chicken fat, like goose fat, may be used for shortening in cakes such as spice cake where the seasoning used will mask and flavor which the fat might have. It can also be used for frying the chicken itself or other meats and for warming vegetables.

**GRASS CLIPPINGS ARE GOOD CHICKEN FEED**

Grass clippings are an excellent green feed for chickens. The back yard poultry flock of a family often lacks sufficient green feed with a consequent reduction of egg and meat production. With the easy availability of lawn clippings the city poultryman can always have green feed through the summer for his chickens. The stock can be fed daily as much of the green clippings as they will eat. If any continued bowel trouble shows, the amount should be reduced. The remainder of the clippings can be allowed to dry and fed moistened during the time between lawn cuttings.

**DON'T USE RHUBARB LEAVES**

Because rhubarb leaves contain certain substances which make them poisonous to a great many persons, specialists of the United States Department of Agriculture warn housewives against using this portion of the plant for food. A number of letters have been received by the department calling attention to the fact that certain newspapers and magazines are advocating the use of rhubarb leaves for greens, and that disastrous results have followed the acceptance of the advice.

**TEN COMMANDMENTS GIVEN FOR INTERNMENT**

Professor Jackson Tells National Committee on Prisons About Canada's Mistakes

NEW YORK, June 27.—The United States should avoid the mistake that Canada made in interning alien enemies, Professor Daniel D. Jackson, of Columbia University, told the National Committee on Prisons and Prison Labor at its annual meeting yesterday in Adolph Lewisohn's home, in Ardley.

Canada made the mistake of imprisoning persons unnecessarily, said Professor Jackson. "At first Canada interned 7900, but now all but 3000 are on parole."

Professor Jackson, who visited the Canadian camps, suggested ten commandments for internment, which are: Register all alien enemies, give receipts for goods seized, select camps carefully, number all interned persons, do not use factories for camps, choose camps far from the interned, water for them in invisible ink and give food and recreation.

# Two Track Records Broken First Day; Satisfax Wins Feature Against Oneonta

Fair Crowd Sees Splendid Program On Fast Track Under Fine Skies

Under the bluest of Hawaiian skies, flanked by trade clouds the second annual meet of the Hawaii Polo and Racing Club began at Kapiolani Park track yesterday afternoon before a crowd of about 2000 persons. The big day of the meet will be tomorrow, Kamehameha Day, when there will be not only races, beginning at ten o'clock in the morning, but polo in the afternoon as well, Maui and Oahu playing. It was well-nigh a perfect day, and the meet also was run off well-nigh perfectly. The total elapsed time was only two hours and forty-five minutes, and this time would have been cut down except for jockeying at the start of the Oneonta mile, the feature race of the day, which was won by the black mare Satisfax.

The winners were—  
First Race—Free for all, trotting and pacing, Carmelita, two heats.  
Second Race—Five furlongs, free-for-all, Umpqua, 1:03 1/5.

Third Race—Oriental Stakes, four furlongs; owned and ridden by Oriental. Pawan Boy, 1:50 3/5.

Fourth Race—Five furlongs, Hawaiian-bred, weight for age. Copra, 1:02 2/5.

Fifth Race—Oneonta mile, Satisfax, 1:40, track record.

Sixth Race—Hawaiian Derby, two furlongs; owned and ridden by John P. Grace. Oneta, 1:36, track record.

Seventh Race—Mile and one-half, free-for-all, weight for age. Sea Bolt, 2:38 2/5.

**Horses Out On Time**  
The track management of Bill Saporas sent Bill Boy and Carmelita to the post promptly at two o'clock, John P. Grace's Theodore Roosevelt had been scratched. The break of Bill Boy at the turn robbed the first heat of much of its interest, Carmelita II, driven by MacDonald, winning easily by ten lengths. Carmelita II is owned by John P. Grace.

Umpqua caused some trouble at the start of the five-furlong race, the second of the day, but the horses got away at two-thirty o'clock, Fair Mary ahead, but Umpqua, the hands-down favorite, quickly closed the gap, took the rail and won without the whip, although she used the whip on Fair Mary at the beginning of the home stretch. He might have spared it. That a running race really is what takes the eye of the crowd over any harness race was demonstrated by the applause that greeted Umpqua when he came down the stretch in a gallop.

**Second Heat Uninteresting**  
Carmelita and Bill Boy furnished no excitement in the second and deciding heat of the Creola Cup. Carmelita, driven by MacDonald, finished pulled up, but this heat was in better time than the first, 2:23 2/5 as against 2:25.

In the Oriental Stakes, four furlongs, the horses got away at three-fifteen o'clock and turned into the home stretch to an excited murmur from the occupants of the stands, Caucasians and Orientals. This race was for Hawaiian-bred, Oriental owned horses. Pawan Boy, owned by Mr. Yamasaki, got away in the lead and won by four lengths as the stands arose. The time, 1:50 3/5, was good for the class of horses. Soci Road Pawan Boy.

Edward Baldwin's Kapiolani was scratched for the fourth race. R. W. Shingle's Bubbling Water and Doctor J. C. Fitzgerald's Copra went to the post only five minutes late and got away to a beautiful start almost before the crowd was prepared. Copra drew away stride by stride around the turn, but under Phillips' whip, Bubbling Water responded with a game burst of speed and tore into the home stretch, slowly cutting down the four-lengths lead of Copra at the half, which was in 48. The Shingle mare, apparently hopelessly beaten, ran splendidly, giving the crowd one of the real thrills of the day, and went under the wire only an open length behind Copra, although it is true that Bubbling Water was under the whip. There were cheers for Rolins and Copra, but for Phillips and Bubbling Water as well. It was excellent sport.

**And The Band Plays " Dixie "**  
This break put the crowd on its mettle for the great contest of the day, the Oneonta mile—tensest that was quickened when the band struck into "Dixie."

Mrs. W. F. Dillingham's Oneonta, in splendid condition, followed by Capt. R. E. D. Hoyle's Satisfax and Mrs. Walter Macfarlane's Mary Jay, went to the post at three-forty-six. Donvitz was up on Oneonta, which was nervous; Carroll on Satisfax, the coldest of the three; and Phillips on Mary Jay. The start was slow. Mary Jay and Satisfax went under the wire beautifully once, but Oneonta broke. The crowd was keyed up for the money wagered on the race if for nothing else. The start was the most difficult of the day. Satisfax had the rail, Oneonta was next and Mary Jay outside. Satisfax vented her spleen by kicking at Oneonta, but did not strike him. "Jockey Carroll on Satisfax finally drew calls from the crowd for his slowness in coming to the wire. Then it was Oneonta that held back; and then it was Mary Jay. Mary Jay was getting highly nervous after the continued jockeying.

Again Mary Jay and Oneonta went to the wire, and starter Paxson warned the crowd that the next was the last opportunity. Carroll came to time, and the horses passed under the wire at three-fifty-nine, with Satisfax and Mary Jay together and Oneonta a length behind.

**Mary Jay Falters**  
Mary Jay kept up the pace only to the back stretch, when she faltered and fell to the rear, and Satisfax and Oneonta had it to themselves.

The crowd was on its feet at the start. The black mare Satisfax ran like a streak, but Oneonta was at her heels on the turn. Oneonta had been blocked at the first turn by Mary Jay on the rail, and, despite the whip, came under

# Summary of Kapiolani Races

Kapiolani Park, Honolulu, June 9, 1917. Second annual meet of the Hawaii Polo and Racing Club. First day. Weather perfect. Track fast. Albert Horner, presiding judge. S. S. Paxson, starter.

**First Race**—Creola Challenge Cup. Free-for-all trotting and pacing, one mile heats, two in three, Hawaiian bred. Purse of \$300.  
First heat—Mr. J. S. Grace's b f Carmelita II, aged, (MacDonald). Time 2:25. Won by ten lengths.  
Second heat—Carmelita. Time 2:23 2/5. Won easily pulling up to the home stretch.

Both starts good. Winner by Van Fleet-Carmelita.  
W. R. Holt's Bill Boy was completely outclassed, not once coming within shouting distance of Carmelita.

**Second Race**—Five furlongs, free-for-all, weight for age. Purse, \$250, of which \$50 goes to the second.  
Mrs. W. F. Dillingham's ch h Umpqua, a, 126 (H. Donvitz) 1.  
Mrs. Walter Macfarlane's ch m Fair Mary, 3, 112 (P. Phillips) 2.  
Capt. A. K. C. Palmer's b g Robert, a, 126 (A. K. C. Palmer) 3.  
Start, good. Time 1:03 1/5. Winner by Chappinqua-Macardita.  
Fair Mary took the lead from the start, but Umpqua passed her at the three-eighths, winning easily by six lengths.

**Third Race**—Oriental Stakes, four furlongs, Hawaiian bred, owned and ridden by Orientals. Purse of \$300, of which \$75 goes to the second and \$25 to the third. Catch weights.  
Yamasaki's b h Pawan Boy, aged, (Soel) 1.  
G. Puginoto's b m Akibono, 5, (Koney) 2.  
T. Murakami's b k m Mountain Girl, 6, (Matsumoto) 3.  
Start, good. Time .30 3/5.

**Pawan Boy** won after a hard race, Akibono contesting all the way.  
**Fourth Race**—Five furlongs, Hawaiian bred, weight for age. Cup and purse of \$200, of which \$50 goes to the second.  
Dr. J. C. Fitzgerald's b m Copra, 4, 121 (B. Rollins) 1.  
Mr. H. W. Shingle's b m Bubbling Water, 3, 112 (P. Phillips) 2.  
Start, good. Time 1:02 2/5. Winner by Siloo-Lady Copit.  
A closely contested race. Won by a length.

**Fifth Race**—The Oneonta Mile. One mile, free-for-all, weight for age. Purse, \$400, of which \$100 goes to the second. Cup to winner and the time of 1:41 4/5 be beaten. Cup held by Capt. R. E. D. Hoyle's Satisfax.  
Capt. R. E. D. Hoyle's b k m Satisfax, aged, 123 (H. Carroll) 1.  
Mrs. W. F. Dillingham's b h Oneonta, aged, 123 (H. Donvitz) 2.  
Mrs. Walter Macfarlane's b m Mary Jay, 4, 121 (P. Phillips) 3.  
Start, fair. Time 1:40. Winner by Imp. Rock Sand-Souriant.

Satisfax delayed the start for nearly ten minutes and finally was warned by Starter Paxson, and given one more opportunity. Oneonta got away badly and was forced to turn out for Mary Jay. Satisfax won by three lengths, breaking her record made over the same course last year.

**Sixth Race**—Juvenile Plate. Three-eighths mile, Hawaiian bred, two-year-olds. Piece of silver plate valued at \$100 and a purse of \$200, of which \$50 goes to the second.  
Mr. W. F. Dillingham's b f Oneta, 2, 115 (H. Donvitz) 1.  
Ben. H. A. Baldwin's b f Luan, 2, 112 (B. Rollins) 2.  
Start, excellent. Time .36. Winner by Oneonta-Jolo Girl.

The two maidens raced prettily from the start, Oneta taking a slight lead at the quarter post. Luan, the favorite with the talent, lost by three lengths. This is a track record for the two-year-old event.

**Seventh Race**—One mile and a half, free-for-all, weight for age. Cup to be won twice by the same owner, and a purse of \$500, of which \$100 goes to the second.  
Mr. W. F. Dillingham's ch h Sea Bolt, 4, 126 (H. Donvitz) 1.  
Capt. E. M. Whiting's b g Mohawk Boy, aged, 130 1-2 (Capt. E. M. Whiting) 2.

Capt. A. K. C. Palmer's b g Robert, aged, 126 (Capt. A. K. C. Palmer) 3.  
Start, good. Time 2:38 2/5. Winner by Colonel Wheeler-Sen Bam.  
Sea Bolt held the lead all of the way. He was exceptionally well-ridden and his stride was a revelation. Mohawk Boy, the favorite, never threatened, and Sea Bolt won by five lengths. Robert had been a contender in the five furlong, free-for-all, which probably accounted for his poor showing.

The wire three lengths behind Satisfax, as the crowd roared, the Oneonta supporters urging their favorite on.

Bill Saporas raised a big laugh in announcing the time, 1:40, which beat the old track record by .01 4/5; but Bill made it "one minute and four-fifths seconds." It was a splendid race, probably the best ever run in the Islands, and was extraordinary 1:40 with 123 pounds up. This time certainly will command wide attention in the States, and Captain Hoyle is a fortunate owner. Satisfax held the old record of 1:41 4/5.

**And That Was a Race!**  
Another great race was the sixth, the juvenile plate, three-eighths of a mile, two-year-old Hawaiian-breds. It was won by Mrs. W. F. Dillingham's Oneta, the "baby" of the stable, a beautiful and game little filly. The horses started to the post at four-seventeen and made a great race to the finish, and made a great race to the stretch, at which Oneta drew away from H. A. Baldwin's Luan and led by three lengths under the wire in 2:36, a track record for two-year-olds. Dr. J. C. Fitzgerald's Knight of Glin did not start.

Sea Bolt, owned by Mrs. Walter F. Dillingham, was the long mile and one-half in impressive fashion. This was the last race of the day. Donvitz was up on Sea Bolt, which took the lead on the turn, came under the wire four lengths ahead of Mohawk Boy and in a commanding position on the rail. It was a question of whether of staying only for the position, lead and space devouring, machine-like stride of Sea Bolt scarcely could be beaten. He gained a length or so on Mohawk Boy in the last mile. Robert was far in the rear. The riding of Donvitz was an important factor in the victory of Sea Bolt. It is quite true that he greatly outclassed Captain Whiting on Mohawk Boy and Captain Palmer on Robert. Mohawk Boy was carrying four and one-half pounds overweight, however. Sea Bolt's time was 2:38 2/5.

**BIG FEATURE RACE BATTLE OF WITS**

Three of the best jockeys in the Islands were entered in the feature event of yesterday's card—the Oneonta mile. Not only were the jockeys the best to be had, but the horses they rode represented some of the best horse flesh in the world. Satisfax, the Imperial Rock Sand—Souriant mare, probably is the best bred animal in the Islands, and it is certain she comes from record-breaking stock. But to return to the jockeys, who made possible that memorable race. Pat Phillips, Henry Donvitz and Johnny Carroll have all ridden in one or more of the larger sweepstakes in the South, East and West, and it goes without saying that they are well up in all the tricks of the game.

There is little question now but what that great race of yesterday was a battle of wits between the jockeys. First it was Donvitz who delayed the start, and considerable time was required for the horses to return to the wire, for they were under good headway which carried them beyond the eighth-mile post. It was Carroll's turn next to hang back, and from then on he appeared to make little effort in getting his mount away.

During all of this time Mary Jay was always ready, and Phillips had little trouble in getting her off. She fretted considerably, which might have had some effect upon her poor showing, though she was plainly outclassed.

Now it is generally known that Satisfax is not mean about the start, and a calmer animal would be hard to find. But she did not start, and Starter Paxson lost all patience, warning Carroll that he would be given one more chance. That settled it, and whether this was or not probably will never be known by any other than himself. Suffice it to say the next attempt was successful and Satisfax got away to a great advantage, seemingly with no difficulty. If only goes to show that there are tricks in all trades, but a healthy break in luck is sometimes necessary to get away with the best laid plans.

**FOUR SELECTIONS WIN EVENTS**

Four of seven of The Advertiser's selections crossed the wire as winners in yesterday's races. These were Carmelita II, Umpqua, Oneta and Sea Bolt. In the second race, five furlongs, free-for-all, three places were picked, the bangtails coming home in the order named. In the sixth event, Oneta was chosen over the favorite, Luan. Again in the seventh race, The Advertiser prophet picked Sea Bolt to win over the favorite, Mohawk Boy. In this event the horses drew away to a good start, Sea Bolt taking the lead. He never was challenged, and his easy stride was a sight to behold. Jockey Donvitz rode a masterful race and appeared to be certain of the outcome at all times.

The poor showing of Robert was attributable to his having run in the second race of the afternoon. He never was within the money. He was not given a place in The Advertiser's selections, for it was thought that he would surely be scratched in one of the two events. This is how the selections read: First race—Carmelita II. Second race—Umpqua, Fair Mary, Robert. Third race—Akibono, Pawan Boy, Mountain Girl.

Fourth race—Bubbling Water, Copra. Fifth race—Oneta, Satisfax, Mary Jay. Sixth race—Oneta, Luan. Seventh race—Sea Bolt, Mohawk Boy.
